Objective

Enthusiastic and motivated Junior Frontend Developer with a passion for creating engaging and user-friendly web experiences. Seeking an opportunity to learn, grow, and collaborate on projects that combine creativity and technology to deliver impactful user interfaces and responsive designs and join professional teams.

Experience

Frontend Freelancer | January 2023 – Present
Notable Freelancing Projects:

1. **Portfolio Website (January 2023 – February 2023)**
   - Utilized Figma to design the website and implemented frontend using React.js and CSS.
   - Worked on the landing page of the website and the project details page.
   - Presented the person's skills, experience, projects, and education in a visually appealing and professional manner.
   - Leveraged the react-router-dom library to proficiently manage end points and navigation between different pages of the website.
   - Incorporated responsive design principles for optimal viewing across devices and platforms.

   Live: Nourhan Shakir Portfolio

2. **Light Plus (May 2023 – June 2023)**
   - Collaborated with the client to enhance CSS for their online store, improving visual appeal and responsiveness via media queries.
   - Improved the visual aesthetics and user experience by fine-tuning the CSS code.
   - Ensured a consistent and cohesive design across different sections of the website.
   - Infusing dynamic motion into the website for enhanced visual appeal and interactivity using keyframes.

   Live: Light Plus

Skills

- Proficient in HTML, CSS, and JavaScript.
- Experienced in building responsive web applications using React.js.
- Knowledge of Git version control system and GitHub platform.
- Familiarity with modern CSS frameworks and preprocessors such as Bootstrap and SASS.
- Familiarity with Figma for UI/UX design.

Projects

Book Store

Developed a responsive website for selling books, utilizing JavaScript functions and fake API for dynamic content.

Features:

- Implemented modern CSS techniques such as Flexbox and Grid for an intuitive layout.
- Utilized React.js to enhance interactivity and modularity.
- Implemented search functionality and employed react-router-dom for seamless navigation.

Technologies: HTML, CSS, JavaScript, React.js
